

# Coaching Framework

Our purpose is to develop coaches who connect and inspire players through Netball. The Coaching Framework aims to provide some flexibility, where Coaches can pick and choose how to start their learning journey in the Community and Foundation spaces without committing to completing a full qualification. We acknowledge that coaches may operate in multi levels in any one season.

The learning experiences are as follows:

- Foundation Coaches engage in the workshop of the level they are coaching.
- Community coaches may design their learning programme, choosing from any Foundation, CCA 1 or CCA2 workshop.
- CCQ coaches engage in all workshops of this level.
- PCQ coaches engage in all workshops of this level.
- HP coaches engage in a blend of specified and bespoke learning.
